

Travel Letter for cpaphero Freedom CPAP Battery 160

- June 2024 -

cpaphero is the manufacturer of the Freedom CPAP Battery 160. This portable lithium-ion battery provides power to Positive Airway Pressure (PAP) devices like CPAP machines and other similar medical devices.

CPAP Machines and other PAP devices are used by those diagnosed by a clinician with Sleep Apnea during sleep to keep the airway from collapsing which causes temporary cessation of breathing (apnea).

We hereby certify that:

- the Watt hour rating of the Freedom CPAP Battery 160 is 160 Wh
 - o this information is printed on the battery
- the Freedom CPAP Battery 160 has been UN 38.3 certified

The Freedom CPAP Battery is compliant with FAA regulation 49 CFR 175.10(a)(18)(ii) allowing up to two (2) spare batteries to be brought in carry-on luggage.

For more information, please refer to the User Manual or call customer service at 1-888-202-4376.

Sincerely,

cpaphero
